## MEMORANDUM FOR THE RECORD

25X1A  
25X1A  
SUBJECT: Conversation with [ ] regarding Proposed Visits  
of General Carter to [ ] and  
Vandenberg Air Force Base, 20 and 21 January 1965

25X1A

25X1A

1. [ ] called the morning of 5 January to request me to look into the matter of General Carter visiting the three facilities noted above in the subject line during the days indicated. At present the General and [ ] plan to return to San Francisco the evening of Tuesday, 19 January from Honolulu. General Carter is willing to spend Wednesday and Thursday of that week on the coast visiting the satellite installations, if it would be useful to us, as well as informative to him. According to [ ] 25X1A  
General Carter would like to have General Greer with him on any trips to these three facilities.

25X1A

2. [ ] asked me to look into the question of who should accompany the General from Headquarters if this visitation materializes. We discussed briefly Mr. Maxey and/or Mr. Parangosky and others. It may also be that Dr. Wheelon or Col. Ledford would like to be present. [ ] also asked that there be no contact with General Greer or his people at this point and further that we develop a rough schedule for any visitations which we might feel were appropriate and productive, together with probable travel times between places and suggested duration of visits and people to see. I told him that I was leaving for a trip this afternoon myself, and would not be able to finish any staff work on this assignment, but would relay the message to Col. Ledford and Mr. Parangosky for their consultative advice and guidance leading toward such an informal proposal.
